

GlutaQuick Endonasal Formula 20mL

- > Carefully selected ingredients that have a regulatory effect on the central nervous system, brain function, metabolic capacity, oxygenation, detoxification and immune function.
- > Features clinically evaluated homeopathic ingredients that restore regulation of the metabolic balance.
- > Neuroendocrine axis rebalancing, mental and physical stress conditions, cellular function support, and detoxification of the extracellular matrix..
- > High potency formula results in sustained release glutathione for optimal blood levels.

Contains 20mL of GlutaQuick for Intra Nasal Application. This works remarkably well for those on the go and unable to nebulize or conveniently use a suppository. Glutathione is the body's most powerful antioxidant and detoxifier. Glutathione is a combination of three simple building blocks of protein or amino acids – cysteine, glycine and glutamine. It is a very straightforward molecule that is produced naturally in your body. Yet exposure to toxins, waste build up, and disease process can have deleterious effects on glutathione levels. The quality of adaptive functioning is highly dependent upon adequate, stable levels of circulating glutathione. Proper supplementation with l-glutathione can play a key role in preventing damage caused by free radicals.*

Indications and Suggested Usage:

GlutaQuick contains 20mL of glutathione, the body's most powerful antioxidant. Antioxidants are substances or nutrients that can prevent or slow the oxidative damage to our body. When our body cells use oxygen, they naturally produce free radicals (by-products) which can cause damage. Antioxidants act as 'free radical scavengers' and hence prevent and repair damage done by these free radicals. GlutaQuick is specifically designed for detoxification and drainage of the extracellular matrix. This enables absorption of oxygen and nutrients, allowing cellular receptors to be activated by the 'therapeutic molecules', thus enabling cells to perform their metabolic and respiratory function. GlutaQuick supports downregulation of constitutional proneness to deficits in central nervous system function.

GlutaQuick provides a direct method for reducing toxin build up and oxidative stress. Both systemic processes may result in symptoms such as: allergies, sinusitis, Parkinson's disease, headaches, persistent skin conditions, and digestive problems, loss of mental clarity, fatigue or even chronic disease states. GlutaGenic.com provides a simple, effective method to improve quality of life by optimizing physical and physiological functions and enhance vitality. By utilizing Glutathione as part of a comprehensive detoxification and drainage treatment plan, you can find relief from the bothersome 'toxic' symptoms and systemic disease process.*

Dosage and Storage Instructions:

Packaged in a convenient endonasal delivery system, Glutathione can be administered easily when other methods will not do. GlutaQuick is great for individuals on the go, when travelling, at the office, or any time when other methods are not available. We use the same high potency formula in the GlutaQuick formula. The lining of your nose is rich in blood vessels, and Glutathione can be easily absorbed into your bloodstream. Ideal for an individual with an active lifestyle that is serious about their health.

Using the endonasal pump is fast and reliable. The following steps provide instruction on proper usage. Blow your nose gently before using the spray. Prime the bottle by spraying it into the air a few times. Hold the bottle with your thumb at the bottom and the first two fingers at the top on either side of the nozzle. Tilt your head slightly forward. Gently insert the nozzle tip into one nostril. Press on the other side of your nose with one finger to close off the other nostril. Breathe in quickly while squeezing down on the bottle one more time. Repeat in other nostril. Do not blow your nose right after using the spray. Use 2-4 pumps per day.

Please Note: This product is not for injection. This product should be kept refrigerated to maintain full potency. Please use this product within 6 months of purchase date for best results. Keep this product away from sunlight.

Supplement Facts	Servings Per Container: 30	Proprietary Blend
Serving Size 1ml		
<hr/>
