

GlutaStat Endonasal Formula

- Excellent for chronic sinusitis, bronchitis, and any upper respiratory disorders.
- Reduction of rhinorrhea, hyperlacrimation, sneezing, and bronchospasm.
- High potency formula results in sustained-release Glutathione for optimal blood levels.
- Contains Anti-Microbial *Homeopathies*, Herbal Extracts & Colloidal Silver exclusively available from GlutaGenics!
- Contains N-acetylcysteine (NAC) exclusively available from GlutaGenics!
- This product was designed to provide optimal support for upper respiratory tract (Sinus'/Lungs)

Contains 20mL of GlutaStat NS for Intra Nasal Application. This product is significantly more concentrated than the GlutaStat in the 35ml bottle. This works remarkably well for those on the go and unable to nebulize. Glutathione is the body's most powerful antioxidant and detoxifier. Glutathione is a combination of three simple building blocks of protein or amino acids – cysteine, glycine and glutamine.

Indications and Suggested Usage:

GlutaStat Nasal Spray assists in persistent sinusitis, bronchitis and various upper respiratory disorders. Furthermore, there is a reduction of rhinorrhea, hyperlacrimation, sneezing and bronchospasm with regular usage of GlutaStat NS. The active ingredient of Glutathione in addition to carefully selected homeopathic ingredients, aid in cell nutrition support, symptom control, detoxification, and cellular immune support.

GlutaStat Nasal Spray provides a direct method for reducing toxin build up and oxidative stress. Both systemic processes may result in symptoms such as: allergies, sinusitis, Parkinson's disease, headaches, persistent skin conditions, and digestive problems, loss of mental clarity, fatigue or even chronic disease states. In addition, GlutaStat NS provides reduction of immune suppression responses. GlutaGenic.com provides a simple, effective method to improve quality of life by optimizing physical and physiological functions and enhance vitality. By utilizing Glutathione as part of a comprehensive detoxification and drainage treatment plan, you can find relief from the bothersome 'toxic' symptoms and systemic disease process.*

Dosage and Storage Instructions:

Packaged in a convenient endonasal delivery system, GlutaStat Nasal Spray is great for individuals on the go, when traveling, at the office or any time when other methods will not do. The lining of your nose is rich in blood vessels, and Glutathione can be easily absorbed into your bloodstream. Ideal for any individual with an active lifestyle that is serious about their health.

Using the endonasal pump is fast and reliable. The following steps provide instruction on proper usage. Blow your nose gently before using the spray. Prime the pump bottle by spraying it into the air a few times. Hold the bottle with your thumb at the bottom and the first two fingers at the top on either side of the bottle. Tilt your head slightly forward. Gently insert the nozzle tip into one nostril. Press on the other side of your nose with one finger to close off the nostril. Breathe in quickly while squeezing down on the bottle one time. Repeat in the other nostril. Do not blow your nose right after using the spray. Use 2-4 pumps per day.

Please Note: This product is not for injection. This product should be kept refrigerated to maintain full potency. Keep this product away from sunlight. Please use this product within 6 months of purchase date for best results.
